

2024 National Unified Examination Enrollment Regulations for Ordinary Higher Education Institutions in Shanghai (Unified College Entrance Examination in Autumn)		
1、 Full name of the institution		Shanghai University of Medicine & Health Sciences
2、 School Address		279 Zhouzhu Road, Pudong New Area, Shanghai
3、 Levels		☒ Undergraduate degree ☒ Junior college degree
4、 Type of Education		☒ Regular higher education institutions ☐ Adult higher education institutions ☒ Public higher education institutions ☐ Private higher education institutions ☐ Independent colleges ☐ Higher vocational colleges ☐ Higher vocational and technical schools
5、 Name and type of school issuing academic certificates	College name	Shanghai University of Medicine & Health Sciences
	Certificate type	Upon completion of the semester and meeting the graduation requirements, the undergraduate or junior college diploma of Shanghai University of Medicine&Health Sciences will be issued.
6、 College Enrollment Management Agency		The Enrollment Leading Group of Shanghai University of Medicine&Health Sciences is the highest decision-making body of our school's enrollment work, and uniformly leads the school's enrollment work; The Enrollment Office of the Academic Affairs Office of Shanghai University of Medicine&Health Sciences is the permanent organization for our school to organize and implement enrollment work, which is responsible for the daily work of the school's unified enrollment in autumn; The Discipline Inspection and Supervision Office of Shanghai University of Medicine&Health Sciences is the discipline inspection and supervision organization of our school's enrollment work.
7、 Enrollment Plan Allocation Principles and Methods		1、 Based on the annual enrollment scale approved by the Shanghai Education Commission, combined with the school's development positioning and educational conditions, our school has comprehensively considered the preparation and use of enrollment plans by province and major in recent years, and scientifically and reasonably formulated the school's enrollment plan by province and major for this year. 2、 There is no gender ratio limit for each enrollment major, and employers in the midwifery major generally only recruit female students. 3、 For the enrollment plan of our school by province and major this year, as well as the requirements for provincial and municipal elective

	subjects in the reform of the college entrance examination, please refer to the relevant documents on the 2024 enrollment majors and plans for ordinary higher education institutions compiled and printed by the provincial enrollment authorities (hereinafter referred to as the provincial admissions office).
8、 Reserved plan quantity and usage method	1% of the undergraduate enrollment plan is used to adjust the imbalance in the number of students admitted through the unified entrance examination in various regions.
9、 Professional Teaching and Training Using foreign languages	There is no language limit for the entrance foreign language exam, and the language of foreign language teaching after enrollment is English.
10、 Requirements for physical health condition	Based on the "Guiding Opinions on Physical Examination for Enrollment in Ordinary Higher Education Institutions" (Teaching [2003] No. 3) and relevant supplementary regulations issued by the Ministry of Education, the former Ministry of Health, and the China Disabled Persons' Federation, candidates must report their health status truthfully. If the medical history of the illness is concealed, the school will follow the regulations on withdrawal and suspension of enrollment in our school's student management regulations. The school emphasizes that candidates who suffer from the six major types of diseases listed in Article 1 of the "Guiding Opinions on Physical Examination for Enrollment in Ordinary Higher Education Institutions" will not be admitted by the school; The school will not admit students who are color blind or color weak as listed in Article 2 (excluding majors in data science and big data technology, public management); Those who cannot accurately identify any color of wires, buttons, signal lights, or geometric shapes in red, yellow, green, blue, or purple will not be admitted to the school.
11、 Admission Rules	1、 According to the rules for admission based on the results of the National Unified Examination for Enrollment in Ordinary Higher Education Institutions (Autumn Unified Examination): 1. The provincial recruitment office will select students who apply to our school from high to low scores (including bonus points) based on our school's local enrollment plan and admission ratio. The specific enrollment ratio is determined by our school based on the actual student situation in each province and city, and in principle, the enrollment ratio should not exceed 120%. According to the batch of parallel voluntary enrollment, the enrollment ratio should not exceed 105% in principle.

		2. Adopting the principle of score priority, admission is based on the number of enrollment plans for each major, from high to low scores, with a seamless difference between major preferences. Shanghai pre approves candidates for admission based on the order of their preferences. Inner Mongolia Autonomous Region's admitted candidates will be admitted according to the admission rules of "queuing up according to professional preferences within the 1:1 enrollment plan". 3. Policy based bonus points are included in the total score during professional admission. For candidates with the same admission score, Shanghai autumn exam candidates shall refer to the ranking rules announced by the Shanghai Education Examination Institute. Other provincial and municipal liberal arts candidates are ranked in order of their foreign language scores, Chinese language scores, and mathematics scores; Science candidates are ranked in order of their foreign language scores, mathematics scores, and Chinese language scores; Candidates who do not distinguish between arts and sciences are ranked in order of their foreign language scores, mathematics scores, and Chinese language scores. 5. For candidates who have reached the minimum admission score line of our school but have not entered the major preferences and are willing to accept all major adjustments, the school will refer to the comprehensive situation of the candidates for adjustment admission. Those who are unwilling to adjust will be disqualified. 2、 When there is a shortage of students, the provincial recruitment office may apply for admission based on the control score line for the same batch of admissions, which does not exceed 100% of the remaining number in the enrollment plan; If there is still a shortage of students, our school can allocate the remaining enrollment plan to provinces and cities with sufficient students for admission arrangements. 3、 The admission rules and procedures of provinces and cities related to the reform of the college entrance examination shall be subject to the regulations of the provincial recruitment office.
12、 Fee Standards	Tuition fee standards	Undergraduate and vocational majors: Humanities majors are priced at 6500 yuan per academic year, science, engineering and sports majors are priced at 7000 yuan per academic year, and medical majors are priced at 7400 yuan per academic year (Shanghai Development and Reform Commission [2023] No. 21). Vocational major: 7500 yuan per student per academic year (Hujiaoxing [2000] No. 120). Sino foreign cooperation major: Medical Device Maintenance and

		Management (Clinical Engineering Technology Direction, Sino Japanese Cooperation) 21000 yuan per student per academic year (Shanghai Development and Reform Commission Standard [2023] No. 4, Shanghai Development and Reform Commission Price Adjustment [2023] No. 21).
	Accommodation fee standard	Each student shall not exceed 1200 yuan per academic year. (Shanghai Education Commission Finance [2012] No. 118, Shanghai Price Fee [2003] No. 56, Shanghai Education Commission Finance [2021] No. 3)
13、 Funding policy		Our school conscientiously implements relevant national and local student financial aid regulations. Students from economically disadvantaged families who are admitted to our school can apply for admission through the "green channel". After enrollment, they can apply for national scholarships, national motivational scholarships, Shanghai scholarships, national student aid, national student loans, work study positions, special hardship subsidies, and tuition waivers according to regulations. At the same time, the school also offers student scholarships, social scholarships, and special scholarships. Our school promises to ensure that students admitted to our school do not drop out due to financial difficulties in their families.
14、 Supervision mechanism and reporting hotline		According to the unified requirements of the "Sunshine Project" for enrollment, our school accepts supervision from the Discipline Inspection and Supervision Office throughout the autumn unified examination enrollment process. Reporting hotline: 021-65881608
15、 Website and contact phone number		School official website: www.sumhs-edu.cn Enrollment official website: zs.sumhs-edu.cn Consultation hotline: 021-65881635
16、 Other Notice		1. Shanghai undergraduate enrollment is approved in advance, and the clinical medicine undergraduate major is order oriented training. After admission, a "Training Agreement" must be signed with the employer. The clinical medicine specialty that trains general practitioners only enrolls candidates with registered residence in the specified area. The plan of targeting Chongming District is separate, and the minimum admission score is not more than 5 points below the minimum admission score of other districts or not lower than the Shanghai special type admission control line (both are lower). If the number of first volunteer students is insufficient, the plan will be adjusted to other districts. Recruit Shanghai students for clinical medicine majors trained in pre hospital emergency institutions in this city. 2. Clinical medicine undergraduate majors enrolled in Kashgar, Xinjiang are order oriented training programs, and after admission, a

"Training Agreement" must be signed with the employer.
